Corporate Mission and Vision

Prairie View Industries' mission has not changed since 1991 when Richard Allen, (President/Founder), built his very first ramp. It is to help mobility-challenged people lead more active, productive, and happier lives. We strive every day to improve designs for better adaptability in the everyday world. We also encourage customer input and are more than willing to adapt to specific needs.

Our Food Service line was started in 1999 and has grown every year since and is now a leader in the industry. We strive to have the highest quality equipment in both Stainless Steel and Aluminum and the best customer service. We will continue to maintain inventory levels for quick delivery. As in our ramp division, our food service line is growing due to our willingness to listen and build to our customers' needs.

Prairie Views' mission and vision are both quite simple. We are a family-owned company that sincerely want to grow as a family for our company, our employees, our customers, and our community.
